

The User

must know to

take a
photo of
the fruit

so that

it recognize the fruit
and it gives the
nutritional information
about it

people

needs to

search for
calories
value

so that

she can use food
dictionary to maintain
her body fitness

.

people

needs a way to

promote
healthy eating
and energy
expenditure

so that

monitoring of dietary
intake and physical
activity

**Analytical
chemistry**

provides

information
about the
chemical
composition

which

a vital role in our
